Inspiration

Welcome to Knauf Marmorit's first, regular news letter where we will bring news updates and information. This will include topics on Knauf Marmorit, new products, case studies, events and developments within the rendering industry.

Marmorit has 145 years of experience in the construction industry and has been part of the Knauf Group since 1982. Our reputation has been built on exemplary service, quality and resilience of our products, which have been used world wide on projects including commercial buildings, local authorities, schools, hospitals, private residential and social housing.

THE FORUM

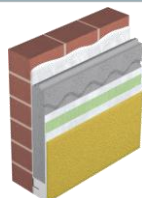

As part of the company's continued development, Marmorit UK GmbH has branded itself as Knauf Marmorit UK GmbH.

The merger of brand names is an important step in the company's history and signifies the position of Knauf Marmorit along side the other Knauf companies within UK.

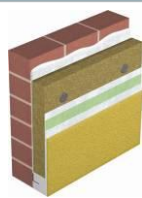

Knauf Marmorit has always been at the forefront of research when it comes to render development; which ensures that no matter what amendments take place to building regulations related to U-values, Knauf Marmorit has a system that will meet these demands. Many of the systems available provide thermal and sound insulation, as well as a weatherproof and decorative finishes.

**Warm Wall
Tongue and Grooved**

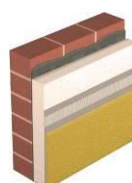

Expanded Polystyrene system with a T & G joint for better thermal performance

**Warm Wall
Fibre**

Mineral Fibre system available for superior fire performance

**Warm Wall
Slimtherm**

Phenolic Insulation system for greater thermal performance at a reduced thickness

**Warm Wall
Brick-slip**

Warm Wall system with either a flexible or solid brick-slip frontage

A major part of our success is having the ability to offer a choice from an extensive product portfolio. Knauf Marmorit are able to offer finishes which include mineral, silicone, acrylic and marble, in grain sizes that range from 0.6mm to 7mm. All of which are available in over 300 standard colours, in a selection of insulation types up to 400mm thick.

To help ensure that projects of all sizes run smoothly, Knauf Marmorit offer a before and after sales service. This includes full specification and detail delivery, as well as pre and post site support. Knauf Marmorit backed warranties are, of course, standard, where a Knauf Marmorit approved applicator has been used.

A full range of services are available from us including samples, specifications, training and CPD seminars, U-value and condensation risk analysis, site reports, detail drawings and a list of nationwide applicators that have been trained and monitored by us.

For more information on any of Knauf Marmorit's product range or to speak to a member of the team to discuss projects, arrange a CPD, or simply receive an up to date price, please respond via e-mail to sales@marmorit.co.uk or telephone 0800 7313076

NEXT NEWS LETTER – Feature projects and new product and system updates. Also other project case studies to be included in future bulletins showing different systems within the Knauf Marmorit portfolio.

Appointment of new Managing Director

Knauf Marmorit is pleased to announce the appointment of a new managing director. Mark Meagrow joined the team on August 1st and is said to be delighted with the opportunity to be involved with such a well known company within one of the most respected groups in the construction industry.

Mark comments; *'I am really excited to be part of a company that is small enough to offer all of the benefits a SME brings to the market, coupled with the immense backing of a group like Knauf'.*

Mark brings a wealth of experience to Knauf Marmorit after spending over 5 years with DORMA UK and previously over 23 years with waterproofing manufacturers Icopal.

'Knauf Marmorit has a fantastic value for money product offer and operates a culture where customer service is key. However, in my first few weeks within the organisation I am confident that with the co-operation and dedication of my team we can further improve the trading experience our customers have grown to expect from us', Mark adds.

You can contact Mark on: mark.meagrow@marmorit.co.uk
